I am a Front-End Developer with 1 year of experience in React.js. I have Developed My Skills in Front-End Development, Specifically Focusing on React.js, Over the Past Year. I am Proficient in Building and Implementing Innovative and Seamless User Interfaces Using React.js and Related Developer Technologies. I have a good Understanding of Effective UI Design Principles and Creating Engaging user Experiences. I am Familiar with the Tools Associated with React.js and Capable of Working on Projects According to Defined Requirements and Timelines. I am Committed to Continuous Learning and Professional Growth in the Field of Front-End Development, and I Strive to Deliver High-Quality Work as a React.js Developer.

Work Experience

Front-End Developer • Athr

July 2023 - January 2024

- My name is Ahmed Mohamed Helmy ,and I worked as a front-end developer at Athr company. I have experience in developing effective and engaging user experiences using technologies like HTML, CSS, and JavaScript. I was responsible for designing, implementing, maintaining, and enhancing user interfaces for websites and web applications.

Education

faculty-of-computers-and-informatics-Suez-Canal-University

Software Engineer

I am a student at the Faculty of Computers and Informatics at Suez Canal University.
I am studying in the Software Engineering department.
I am passionate about developing skills and knowledge in the field of software engineering.
I study subjects such as software design, web and mobile application development, and software testing.

Route Academy

Front-End Developer

I have completed a course in front-end development focusing on React.JS.

I have invested significant time and effort in learning React.JS and developing my skills as a front-end developer. I have learned the fundamentals of React.JS, including creating React components, managing state and routing, interacting with APIs, and building responsive and scalable user interfaces.

I have experience using development tools associated with React.JS, such as Redux and React Router . I have applied concepts of attractive UI design and effective user experiences using React.JS.

I am capable of analyzing requirements and implementing accurate and efficient UI designs using React.JS and its associated tools. I conduct testing and debugging of applications to ensure good performance and smooth user experience.

Skills

- HTML
- HTML5
- CSS
- JavaScript
- ES6 JavaScript
- Bootstrap5
- React.js
- React Query
- React Hooks
- Axios
- JSX
- Virtual DOM
- Context API
- Redux
- JWT auth
- Online Payment Integration
- Github

Projects

Fresh Cart

Demo : https://first-fresh-cart.vercel.app/

Fresh Cart is an e-commerce website .

· Built using (React.js), HTML5, CSS3, React bootstrap, universe loaders, font awesome.

· Authentication and protected routes and inverse.

· axios.

· react router dom.

· Formik and yup to set up the form and do the validation.

· Jwt-decod to decrypt the token, ensure that it is valid, and know the role of the client.

· React-query to perform data caching

· React-toastify to show warnings, speak to the user

· I used Context in this project instead of Redux because it is not a large project

· React-detect-offline I also worked on some logic so that when he is offline and the user wants to take a certain action, I do not respond and show him that he is offline by react-toastify.

· React-slike-slider

· React-content-loader

Project Router

Demo : https://react-routing0.netlify.app/
skills:
-React.js for responsive ui
-React-router-dom (SPA)
-html5,css3,bootstrap,fontawesome

Yummy

Demo : https://ahmedhelm-y.github.io/Yummy/
"Yummy" is a fantastic food recipe website that has been developed using HTML, CSS, JavaScript, and jQuery. It allows users to explore and discover a variety of delicious and exciting recipes. The website features an attractive and visually appealing user interface that showcases beautiful food images along with comprehensive details for each recipe. Additionally, it provides detailed instructional videos that demonstrate the preparation steps and ingredient quantities for users who want to try their hand at cooking. "Yummy" offers a seamless and user-friendly experience, aiming to inspire and tantalize users' appetites for enjoyable and delectable food.
